

The Governor's Advisory Council on Aging believes the recent expansion of the Silver Alert criteria is important to a timely and effective response for missing at-risk individuals younger than 65 years of age who are diagnosed with Alzheimer's disease or (another type of) dementia. The Council on Aging is grateful to Senator Gail Griffin for sponsoring SB1196, for the wide bipartisan support the legislation received in both the Senate and the House of Representatives and to Governor Ducey for his support in signing the bill.
